

Welcome to  
**THE BEST YEARS OF  
CHILDHOOD!**

We solemnly swear

TO UPHOLD THE MAGIC OF BUBBLES,  
whether they are being made in the pool or on the gym floor,  
**AND TO ALWAYS PUT THE CHILD FIRST.**

We vow to honor the wonder that is   
**THE FOAM PIT AND TWISTY SLIDES,**  
AND TO PROTECT THE STUDENTS WHO NEED HELP GETTING OUT.

As former preschoolers ourselves,  
**WE PROMISE TO ALWAYS  
INSTILL A LOVE FOR LEARNING**   
AND GIVE EVERY FAMILY WE SERVE A REASON TO DO THE SAME.

**WE PROMISE TO MASTER**   
THE ROLLOVER & FLOAT AND THE STICK OF OUR LANDINGS,  
and to share those skills with all who want to learn!

We pledge to create an environment where  
**TUTUS ARE PART OF THE UNIFORM,  
BELLS ARE ALWAYS RINGING,  
TADA'S ARE CELEBRATED,**   
AND WHERE ARIEL IS A MERMAID... BUT ALSO A CARTWHEEL.

We vow to do everything in our power to  
**DIVE, JUMP, OR LEAP OVER ANY OBSTACLE**   
AND TO TAKE PRIDE IN OUR ESTEEMED ROLE AS SWIM GOGGLE FASHIONISTAS.

We are committed to helping every ninja  
**BEAT THAT WALL!!!**  
AND COMPLETE THE CLIFFHANGER WITH OUR LOUDEST HI-YA!

We swear to make  
**BIRTHDAY PARTIES, KIDS NIGHT OUT & SUMMER CAMPS  
AS GOOD AS THE MEMORIES  
THEY ACCOMPANY**   
WHILE MAKING SPLASHES AND CANNON BALLS  
as epic as the swim class itself.

IT IS IN THE NAME OF THE GOODBYE SONG  
AND WITH SWIM FINS IN HAND,  
**THAT WE PLEDGE ALLEGIANCE TO**  
The America's Kids Way!

OUR **PROMISE** TO YOU

**PROGRESS**  
**EVERY LESSON**  
**OR WE'LL GIVE YOU**  
**A LESSON FREE**

# PROVEN PROCESS

FOR PROUD, IMPACTFUL MOMENTS - SINCE 1997!

## WELCOME

THE  
SMILES  
START  
HERE

From day one, you'll feel why AKIM is the place to be. We listen, learn about your child's interests, and guide you toward the perfect program fit. Whether it's a trial class, camp day, or first lesson, our team makes getting started simple, smooth, and stressfree, so your family can jump right into the fun!

## FIRST EXPERIENCE

WHERE  
THE  
MAGIC  
BEGINS

From the moment your kiddo walks through the doors we are ready to create proud, impactful, photo worthy moments. It's all systems go for fun, friends, and fearless firsts. Parents, you can exhale; we've got the energy, the music, and the magic covered, where high fives are currency and laughter bounces off the walls!

## A TRUSTED PARTNER

ALL THE  
FUN, ALL  
IN ONE

Our proven curriculum keeps your kiddo learning, laughing, and leaping toward their next big "ta-da!", and the best part? You never have to go anywhere else. From tiny tumbles to teen triumphs, AKIM is your one-stop fun shop for all things movement, confidence, and childhood magic. Because kids are our thing, and we're proud to be the most fun place in the Central Valley to grow up.

## PROGRESS AND GROWTH

THE AKIM  
ATHLETE  
ROADMAP

Progress at AKIM is personal, powerful, and packed with fun. We keep parents in the loop with clear communication about what their child is learning, how they're improving and what's next. From first tries to big triumphs, we celebrate every win with cheers, high fives, and the kind of excitement that makes kids believe they can do anything.

## ENDLESS FUN

STACKING  
UP THE  
LAUGHTER

From birthday parties that sparkle to camps that make summers shine, from preschool play to performance teams, AKIM has it all. Wherever your child's curiosity takes them, we're ready to jump, dance, and splash right alongside. With so many ways to move, learn, and laugh, AKIM truly is the place to be.

# YOU'RE IN THE RIGHT PLACE!

Welcome to America's Kids in Motion. This is where the fun stuff happens! We are the valley's premier locally owned comprehensive hub for youth activities. Since 1997, we have been providing a wide range of programs designed to cater to children of all ages, interests, and abilities. We understand how important it is to feel secure and happy when you're looking for activities for your children. From swimming classes and gymnastics lessons to dance, preschool, music, and ninja classes, our programs each use nationally recognized curriculums, ensuring proper technique from the very first lesson. We deeply value safety, convenience, fun experiences, quality instruction, and opportunities for both our students and families.

At America's Kids in Motion, there is something for everyone. Our facilities have been growing and expanding since our inception. It all started with swim lessons in Fresno and Clovis, and in 2008, we opened our indoor swim school at our current location in Clovis. The following years saw the addition of thirteen facilities, each designed to foster proud impactful moments. At the core of our growth is a desire to provide spaces for young students to build confidence and instill an enthusiasm for learning.

From the moment your kiddo walks through the doors we are ready to create proud, impactful, photo worthy moments. It's all systems go for fun, friends, and fearless firsts. Parents, you can exhale; we've got the energy, the music, and the magic covered, where high fives are currency and laughter bounces off the walls!

Local roots. Locally owned. Locally loved.

# AKIM IS THE PLACE TO BE!

## HERE'S WHAT YOU NEED TO KNOW!

Parents, guardians, and families play an essential part in all of our programs. This guide provides you with an overview of the many aspects associated with all of our programs, such as dress codes, check-in procedures, and advancement standards.

At America's Kids, we offer many opportunities for success. We believe happy children learn quickly, and it's our goal to maximize your child's learning experience. With the right balance of challenge and accomplishment, children find that learning is fun! We can't wait for your unforgettable moments with us to begin!

# SCHEDULING

We know childhood is busy, in the best way. That's why enrolling at AKIM is refreshingly simple. You can join anytime, transfer to a new class when your schedule shifts, or drop when you need to. No complicated seasons. No stressful enrollment windows. Just easy, year-round access through our app or with a quick stop at the front desk.

Life changes; t-ball starts, school schedules adjust, nap times disappear (we've been there). When it does, we'll help you find a new day, time, or level that fits. Consistency helps kids thrive, but flexibility helps families stay. At AKIM, you get both.

Because the goal isn't just signing up. It's staying, growing, and making this the best part of your week—all year long.

Classes are offered

8 a.m.- 8 p.m. Monday - Friday

8 a.m. - 1p.m. Saturday

# BILLING AND PAYMENTS

We operate on a perpetual enrollments basis. This means that your child's spot in class is automatically reserved upon the timely receipt of your monthly payment. All tuition at America's Kids is set up as automatic billing. Upon registering for a class, you will be asked to provide credit card or e-check information for automatic monthly billing. Your payment will be automatically processed on the 22nd each month for the next months tuition. For example February tuition will be processed on January 22nd. Tuition statements are emailed prior to the 22nd of each month for your review. If your tuition is overdue, a late fee will be added to your tuition for the month.

America's Kids is an insured and licensed facility. To keep all of our students covered under our policy, families pay an annual anniversary fee per child. This fee covers your student in any of our America's Kids programs, and you will also receive a t-shirt or swim diaper each anniversary.

## HELPFUL TIPS!

## Bathroom Breaks

At AKIM, your students will be running, jumping, flipping, spinning, and splashing! All this fun will inevitably lead to them needing a bathroom break. We highly recommend arriving a little early and using the bathroom before class. This will cut down on time missed from class. Even with a bathroom stop before class, some students will need a second trip during their lesson. We ask that you are ready to help in case they do you.

## Who to ask?

Every facility has a program expert available to answer any questions you have about your child's progress in their class/level. If your department expert is not available during your lessons, please ask the front desk to help you get in contact with them. We all want your child to learn and be successful in their lessons!

## WITHDRAWAL PROCEDURE

While we are sad to see you go, we understand that sometimes everyone needs a break or to switch up activities. To ensure that you are removed from class, a withdrawal request form must be submitted by the 21st of the month. When you submit a withdrawal request, your child's last day of class will be the last day you are currently paid through. If you are unhappy with your lessons, please let us know. We are always happy to help. Feedback on our instructors and programs is always appreciated! No matter the issue, we want your time at America's Kids to be happy and productive. We all have the same goal of keeping your children safe, active, learning and happy! Reminder: We charge monthly for classes and do not process withdrawals in the middle of the month.

## ABSENCES

At AKIM, continuity plays a big part in student success. Learning is most effective when students attend their regularly scheduled class. Because of our strict student to teacher ratio and full classes, missed classes can not result in make-up classes, prorated tuition or refunds.

To access the class withdrawal request form scan the QR code below. The form is also accessible through the home page of our app and website.

# ALL THE FUN, ALL IN ONE!

America's Kids Swim School is a professional year round swim school. Our teaching philosophy is based on a nationally certified curriculum developed by the American Swim Coaches Association. Swimmers age four weeks and up are taught to swim the correct (and safest) way, from the very beginning! The completion of level 10 indicates every swim skill needed for life. America's Kids swim program focuses on safety, fun and stroke mastery in every class.

*4 weeks-adults*

In The Spotlight Little Dancers is where the foundation of dance is built. Our preparatory dance program ensures a love for the art of movement while introducing the beginning technique required for further preprofessional dance training. Tutus, bows, and tip toes will bring your dance dreams alive at In The Spotlight!

*18 months-6 years*

In The Spotlight Preprofessional Conservatory provides the highest level of technical training. This equips each dancer with the skills required to pursue dance at a collegiate and professional level, upon graduation from high school. We believe that training in the art of dance, in any genre, provides essential life skills that benefit students for a lifetime. Students in this program will explore their love for dance and create pathways into the exciting world of performance and competition.

*7+ years*

Gone are the days of riding your bike across town and meeting your friends at the community pool. But that doesn't mean days off of school have to be a bummer! At CampKids, we're bringing back the best parts of childhood—friends, freedom, and FUN! AKIM is where Clovis kids come to make memories and enjoy the ultimate boredom busting camp!

*3-10 years*

## GymUTots

Your child's early years are full of firsts; first steps, first tumbles, and first friendships. At GymUTots, we understand how important these moments are. That's why we've designed a gymnastics program where your child can jump, tumble, and cartwheel, all while gaining ground on the developmental milestones necessary for a successful childhood. From balancing acts that defy gravity to tumbles that spark laughter, GymUTots has just the class for you!

*16 months - 5 years*

We are proud to offer the only movement based educational preschool center in the Central Valley. The Campus Preschool is built upon a strong academic foundation with a unique opportunity to enhance those academics with a strong physical component. We focus on developing capable young leaders who know how to think independently, have a strong desire to seek knowledge and most importantly, love to learn! We look forward to growing with your child.

*2.5 - 5 years*

At Excel Gymnastics, we pride ourselves on offering a fun and progression based environment where your child's love for gymnastics can grow. Our mission is simple: to give children the space to develop as athletes, both in and out of the gym by providing opportunities for bravery, tenacity, and commitment. Offerings include, recreational gymnastics, tumbling, and beginning through advanced USAG competition teams.

*6 years - teens*

The NinjaZone program combines the coordination from gymnastics, the strength and agility from obstacle training, discipline of martial art and the creativity from freestyle movement. This is a place where high octane energy is encouraged, with an hour full of obstacles, trampolines, hanging walls, climbing ropes, and jumping mats, fun comes with the territory. After all, childhood wasn't meant to be spent sitting still!

*Walking - 12 years*

# THE AMERICA'S KIDS PROMISE

We promise progress every lesson or we will give you another lesson for free. Our 35+ years of experience and proven curriculums ensure we teach the way your child learns. Add in expert coaches who love what they do with students who are eager to learn and you have a recipe for success.

## Water Smart Babies

4 weeks - 3 years  
*\*Requires Parent Participation*

Water safety begins in the earliest ages, long before strokes across the pool ever begin. Swimming is one of the calmest, safest, and most developmentally rich things you can do with your baby all year long. Make the splashes, songs, and snuggles of Water Smart Babies your favorite year round ritual.

## Water Smart Tots

2 years

Big feelings, tiny goggles. Water Smart Tots is where little swimmers learn to love the water in an independent class with their instructor. We start with comfort first; smiles, trust, and brave bubbles. Then build beginning swim safety skills like holding their breath, going underwater, floating, kicking, and swimming farther all on their own. It's independence in the making... with plenty of splashy pride along the way.

### Levels

- INTRO  
4 wks-5mo
- Level 1 Angelfish
- Level 2 Starfish

### Levels

- Level 1 Baby Beluga
- Level 2 Baby Otters
- Level 3 Baby Seals

Coach Marcella has been the absolute best thing for my son Lincoln! He was completely traumatized and had an insane fear of the water after a couple lessons at another swim school. Some how Marcella brought him out of it and got him loving the water again! And the progress he made so quickly was amazing! He absolutely loves going to swim and counts down the days! Marcella and another Coach were the sweetest to walk him through a fear of the big slide! We are so thankful for the encouraging and positive atmosphere you guys provide!

## Preschool Swimmers

3-4 years

Brave faces. Big splashes. Growing independence. From first bubbles and happy underwater moments to rolling over, swimming on their front and back, and eventually swimming across the pool with side breathing, this program spans the full early-swimmer journey. It's confidence you can see, skills you can measure, and a smile on their face when they can finally dive all the way to the deep end.

## School Age Swimmers

5+ years beginners

From early skills to polished strokes, we strengthen the foundations: breath control, body position, freestyle and backstroke. Next we level up to breaststroke, butterfly, endurance, and competitive style technique. It's the full swimmer journey, from "Watch me!" to "Time me."

## Swim Team Prep

5+ years

*\*Only for swimmers that have passed level 7*

Swimmers refine freestyle, backstroke, breaststroke, and butterfly while learning turns, using the pace clock, and building real aerobic capacity, strength, and endurance. A 45-minute, non-competitive "team" style workout for swimmers who are ready for more challenge. It's structured like a team practice, but designed to build confidence before competition ever enters the picture.

Swim Team Prep

30 minute private lessons are available for swimmers of all ages. New swimmers 0-2 years will be evaluated for readiness in an independent class. This ensures the best teaching environment possible for your child.

# BUILT FOR EVERY AGE, EVERY STAGE, AND EVERY SPLASH IN BETWEEN.

## ABOUT US

America's Kids Swim School is a locally owned swim school, emphasizing proper technique from the very first lesson. Our nationally certified curriculum teaches bubbles through butterfly and turns even the most fearful students into swimmers! By the time your child has passed level 10 they will have every swimming skill they need for life. Our approach allows us to reward the child's effort at every phase of their swimming progression and build their desire to learn.

## CURRICULUM

At AKIM, we use the SwimAmerica curriculum created by the American Swimming Coaches Association. This comprehensive approach lays the foundation for a lifetime of swimming. Our technique-based teaching builds strong fundamentals first, helping swimmers develop confidence, efficiency, and long-term success in the water. When kids learn proper skills early, they're more likely to enjoy swimming for life; and more importantly, stay safer around water.

Our program serves swimmers from four weeks old through adulthood. Classes are organized by age and ability to keep lessons small, focused, and fun. Swimmers are evaluated weekly and progress at their own pace as they master each skill.

To make growth visible (and motivating!), each level includes a progress wristband that tracks mastered skills. When a swimmer completes all the skills in their level, we celebrate in true AKIM fashion: ringing the bell, awarding a medal, and moving up with a new wristband. It's a proud moment for swimmers and families alike. Our goal is simple: create strong, confident swimmers who are safe, capable, and excited to jump in.

# INDOOR FACILITY

@ Willow & Nees

Welcome to your family's favorite splash spot. Our glass-enclosed pool feels like summer all year long; without the wind, the weather, or the sand in your snacks. Two perfectly heated 90° teaching pools keep swimmers warm and focused, while a separate viewing area lets you cheer, answer a quick email, or simply enjoy watching your child beam with pride (in climate-controlled comfort, of course). Our heated changing area and large family changing rooms make the post-lesson shuffle smoother, faster, and far less soggy. On the way out, don't miss the Lollipop Stop—because bravery tastes best in cherry... or maybe bubblegum. Add in a dedicated parking lot just steps from the door, and you've got a swim experience built for busy parents and big-time splashes.

# OUTDOOR FACILITY

@ Willow & Shepherd

Sunshine, splashes, and summer-all-the-time vibes. Our two perfectly heated 90° teaching pools offer the best of both worlds, keeping little swimmers warm and confident, plus fresh air and vitamin D for both of you.

There's plenty of outdoor space to stretch out, relax, sneak in that quick text you've been meaning to send, and cheer for the end of class cannonballs off the slide. After lessons, swing by our very own Coconut's Cove for a well-earned summer treat—because nothing says "I crushed my swim goals" like a popsicle victory lap. It's simple, sunny, and designed to make swim days feel like the highlight of your week.

# PARENT INVOLVEMENT

@ both locations

To best support your child's learning, we encourage you to watch them swim and be their biggest cheerleader! We ask that you do not involve yourself in the lesson unless requested. We find that most children respond better and learn quicker if parents sit back where they can see the lesson, cheer from the side, and provide positive feedback after class. This allows your swimmer to concentrate on their coach and maximize their learning.

# DRESS CODE

@ both locations

Students three and under are required to wear a reusable swim diaper under their swimsuit. Students older than three, who are also potty trained, should wear a form-fitting swimsuit. We recommend a one-piece for girls and jammers for boys. Swim caps help with correct body position and quicker learning. Goggles are allowed but not required. Students will be required to master safety skills without the use of goggles. Short fins are beneficial for learning after level 3!

# THE AMERICA'S KIDS PROMISE

We promise progress every lesson or we will give you another lesson for free. Our 35+ years of experience and proven curriculums ensure we teach the way your child learns. Add in expert coaches who love what they do with students who are eager to learn and you have a recipe for success.

*"We absolutely adore Miss Claudia!!! She is an amazing teacher with great teaching skills. My little one needs consistency and specific instruction. She will easily take over and try to run the show if given any wriggle room but will also get bored quickly if not stimulated enough. Claudia keeps them engaged the ENTIRE time while also being patient with Catalina's more trying moments. She is great at redirecting their behavior to the task at hand. I absolutely LOVE her teaching style; Catalina loves dance with Claudia! Class was so great that my oldest Savannah begged to join her sister's class and wanted to try dance again! I'm so happy she was able to nurture that little spark they have for dance and get them back in the dance room. She is amazing and her teaching style is truly on point. She is clearly comfortable working with children and has a great skill set for it."*

## In The Spotlight Little Dancers

### Movin' & Groovin'

2 years

This is the "I can do it myself" era – and we are here for it. Movin' & Groovin' is our independent toddler class designed for dancers who are ready to take brave little steps into the studio on their own. With gentle structure, playful music, and teachers who know exactly how to turn wiggles into wins, your two-year-old will twirl, march, jump, and beam with pride. It's their first taste of independence – learning to follow directions, take turns, and move with purpose (while still being wonderfully, gloriously two).

### Little Dancers

3-6 Years

This is where imagination meets intention. Each class blends ballet basics with creative movement, helping dancers build coordination, musicality, listening skills, and confidence; all while pretending they're butterflies, royalty, or occasionally a very dramatic snowflake. We focus on strong foundations (because tiny technique matters), classroom etiquette, and the kind of independence that makes parents peek through the window and think, When did they grow up?

## Classes

- Dance/Gym Combos
- Jazz
- Tap
- Hip Hop
- Ballet

## Conservatory

7+ years

The conservatory is designed for dancers who have a desire to pursue technique, performance and artistry at a higher level with the goal of continuing dance in higher education or as a professional career. In The Spotlight Conservatory offers opportunities for students to study concert genres such as Classical Ballet, Pointe, Variations, Modern and Contemporary; as well as commercial genres such as Jazz, Hip Hop, Musical Theater, and Tap. All conservatory dancers are placed according to ability level with age consideration.

## Company

*\*Directors  
Recommendation*

In The Spotlight's Company Program is a ballet and commercial based cohort designed to provide a strong technical foundation while building individual artistry. This training path is designed to fulfill the needs of serious dance students who plan to transition from a preprofessional studio to a professional dance career or university dance program. Dancers are also given the opportunity to train and work with in house guest choreographers. Company members travel regionally to take advantage of commercial training opportunities with industry leading dance professionals. These events also offer audition, scholarship, and competition opportunities.

*Minimum age for consideration is 4.*

## Ballet Academy

This elite program for talented, highly-motivated dancers training for a career in classical ballet or concert dance, is the most rigorous, comprehensive, and personalized program in the San Joaquin Valley. In addition to intensive, impeccable ballet training, our students practice strength and conditioning on a daily basis for injury prevention in addition to training extensively in contemporary work and other dance styles. Our program is designed to optimize students technical growth and artistic development. This unique approach creates dancers who are extremely versatile and well-prepared to tackle both classical and contemporary repertoire. Dancers in this program train five days per week with regular breaks for academics. Students in the academic conservatory are home schooled or attend charter schools that support independent study. In this exclusive environment, students will form friendships and bonds with like minded individuals who share the same passion, drive, and determination for a professional dance career.

## WHERE EVERY LITTLE DANCER FINDS THEIR SPOTLIGHT

### ABOUT US

In The Spotlight Little Dancers is where the foundation of dance is built. Our preparatory dance program ensures a love for the art of movement while introducing the beginning technique required for further preprofessional dance training. Tutus, bows, and tip toes will bring your dance dreams alive at In The Spotlight!

### FACILITY

Our littlest ballerinas twirl through hand painted castles, curtsy to princesses, and leap alongside ballerina mice (which, conveniently, works wonders for toddler attention spans, no wand required). Each of our seven dance studios are tutu-tested and spotlight-approved. After all that graceful gliding head to the preschool gymnastics facility for a little post-plié encore of cartwheels, giggles, and happily-ever-after goodbyes.

## RECITALS

Our Summer Recital and Winter Showcase are the moments your dancer has been practicing (and practicing... and practicing) for. These are full-costume, full-production, bring-the-whole-family kind of days—where tiny toes take big bows and cameras somehow run out of storage.

We rehearse in the spring for Summer Recital and in the fall for Winter Showcase, building confidence step by step until it's showtime. Themes, details, and all the helpful parent info roll out as rehearsals approach—so you'll have plenty of time to plan outfits, invite Grandma, and clear space on your phone for approximately 427 photos. It's a little sparkle. A lot of pride. And memories that tend to outlast the costume glitter.

## DRESS CODE

**Girls:** Dresscode approved attire is for sale in our dance facilities. Little dancers are required to wear leotards and tutus in mint, lavender, or light pink. Hair pulled back, away from your dancers face.

**Boys:** White or black fitted shirt and black leggings.

**Shoes:** Genre specific shoes are required for the following classes: ballet, tap, and hip hop.

## ADVANCEMENT

Dancers will move to the next level when they have met the minimum age. Student's may be invited to join the preprofessional company program at the directors discretion.

# A PLACE TO LEARN. A PLACE TO GROW. A PLACE TO BELONG.

## ABOUT US

In The Spotlight Preprofessional Dance Conservatory at America's Kids is an exceptional dance program offering technique based classes for students ready to train in intermediate through advanced levels. Our philosophy has always been that dance is an art form that requires years of study for its pupils to truly become proficient. In the age of instant, we believe that the gradual practice of perfection dance requires is of even greater value than in previous generations. We know the true value of self-expression and hard work that dance training brings can never be measured by an external award. Therefore, our focus remains on education. We provide as many opportunities as possible for our dancers to train with industry leaders. Since 1996, the core of our Preprofessional Company motto remains "Training Over Trophies!"

## FACILITY

As dancers grow, their space should grow with them. Our Conservatory Studios are designed for serious training in a thoughtfully designed environment. With sprung floors and top of the line marley surfaces, every leap lands a little safer and every turn feels a little more supported. Adjustable barres allow for proper alignment as bodies grow and change, helping dancers build placement the right way from the start. And our spacious studios and small class sizes give students room to travel, stage combinations properly, and develop artistry without feeling overcrowded.

## NOTES ON

# BALLET ADVANCEMENT

Ballet is the foundation of all dance; a disciplined, methodical art form built on alignment, strength, musicality, and control. Ballet is a lifelong progression. Skills are layered carefully over time, and true mastery cannot be rushed.

At In The Spotlight, we teach a thoughtful blend of American Ballet methodology and the Vaganova method. American training emphasizes clarity, versatility, and clean technical execution, while Vaganova develops strength, expressive port de bras, and refined artistry. Together, they create dancers who are technically sound, beautifully aligned, and artistically capable. Ballet training is highly individual. Progression is based on readiness, not age, and levels can take years to master. It is common for a class to include a range of ages, because strength, coordination, and technical development mature at different rates for every dancer.

The same philosophy applies to pointe work. Pointe shoes are not tied to a specific level or birthday. They are earned through demonstrated strength, alignment, core and ankle stability, and consistent technical control. Readiness for pointe is evaluated carefully and individually, ensuring that each dancer transitions safely and at the appropriate time for their body.

In ballet, patience is not a delay, it is part of the training.

## THE AMERICA'S KIDS PROMISE

We promise progress every lesson or we will give you another lesson for free. Our 35+ years of experience and proven curriculums ensure we teach the way your child learns. Add in expert coaches who love what they do with students who are eager to learn and you have a recipe for success.

*Arianni has grown so much in her abilities and confidence in the time she has been at AKIM. She enjoys going to gymnastics and is so proud of herself when she learns a new skill that you taught her. You are amazing and loved by all the kids. Thank you for your time and patience!*

### Toddler

16 months - 2 years

Every class is designed for busy little bodies and growing minds. Our whole child based curriculum provides gross motor, fine motor, language, social and cognitive skills that encourage the development of balance, coordination, body awareness, vestibular development, following directions, taking turns, many of the same foundational skills that support success in preschool and beyond. There will be high fives. There will be proud smiles. There will definitely be a few "Watch me!" moments. And we wouldn't have it any other way!

### Preschool

3-5 years

Starting with brave beginner basics like balancing and strong body shapes, then building toward handstands and cartwheels, each level thoughtfully guides your little gymnast from first tries to confident "watch this!" moments. As students progress, skills level up to round-offs and pullovers, and more of those "I did it!" moments. Our most advanced preschoolers tackle focused drills that strengthen connected skills and flexibility; all while chasing personal goals with coaches who know just when to challenge and just when to cheer. Every level ends the same way: proud smiles, sweaty hugs, and high-fives.

16 months - 2 years  
\*Requires Parent Participation

Independent Toddler  
2 years

### Levels

Level 1

Level 2

Level 3

Level 4

## School Age

6+ years

Our beginner classes provide a strong foundation, where students master essential skills like cartwheels, handstands, and bridges, while exploring apparatus such as uneven bars, balance beam, trampoline, and rings. In our advanced classes, students focus on mastering complex skills, apparatus work, and dismounts, while perfecting multi-combination tumbling passes. Off-apparatus training also emphasizes body awareness and proper positioning to enhance overall technique, control and athleticism.

## Tumbling

4-15 years

Our specialized, skill-based curriculum guides athletes from foundational skills to advanced techniques like back tucks and twisting passes. Each level is built on safe, structured progressions that keep children challenged and steadily improving. Preschoolers begin with rolls, handstands, and cartwheels, building coordination and body control. School-age athletes advance their strength, technique, and power through focused instruction that emphasizes proper form and safety. From first cartwheels to advanced passes, we help every athlete progress with a targeted and comprehensive approach.

## Excel Team

4+ years

At America's Kids in Motion, our competitive gymnastics team delivers excellence and results within a balanced lifestyle. We uphold the highest standards of training while allowing athletes the freedom to pursue other interests beyond the gym. Led by experienced coaches with a proven record of success, our gymnasts are consistently top all-around finishers and State meet qualifiers. They are well prepared for USAG sanctioned competitions and are equally equipped to thrive in school, sports, social activities, and family life. We are proud to offer the following: USAG Compulsory, Optionals, Xcel, and an NGA boys competitive team.

# WIGGLES WELCOME. GROWTH GUARANTEED.

## ABOUT US

At GymUTots, we believe every child should have the chance to run, jump, and tumble in a place where fun and learning go hand in hand! Our classes combine both motor skills and gymnastics fundamentals in a bright and cheerful space designed just for little gymnasts. Our sunny coaches are warm, bright and full of cheer. With our 20+ years of teaching experience, we know the importance of turning energy into growth, fun into friendship, and movement into learning. It's a place where giggles and friendships fill their world, and childhood becomes even more fun!

## FACILITY

Built just for little movers.

Welcome to a world sized perfectly for preschoolers. GymU isn't a corner of a big gym; it's an entire facility designed exclusively for your favorite whirlwind with legs. No big kids allowed. Every beam, bar, vault, and mat is perfectly preschool-sized for growing bodies and brave beginnings. Parents enjoy a separate viewing area with a clear front-row seat to the action (because independence for them doesn't mean mystery for you). And for our tiniest movers, the Circle Room delivers one entrance, one exit, and endless giggles. A safe, pint-sized paradise built for big imagination, soft landings, and those tiny feet that definitely did not come with brakes. Level passers ring the bell like the champion they are, climb the celebration podium, and strike a pose with our star mascot at the photo wall. This space guarantees giggle inducing ear to ear grins.

## ADVANCEMENT

We use a fun, step-by-step curriculum with clear goals, so your child can progress through the levels at their own pace, while working toward new skills and achievements. We've created a seamless bridge system that helps prepare them for more advanced classes as they age, so they're ready for our "big gym" when the time comes!

Through themes, songs, and playful teaching tools, we nurture the whole child; building their bravery, coordination, and love for gymnastics. Plus, with weekly updates and a fun skill tracker card, your child will feel proud of their progress and excited to keep learning! At GymUTots, every achievement is celebrated and every moment matters.

## DRESS CODE

Appropriate class attire helps make sure that your student is ready to learn and will be able to participate in every cartwheel, handstand, and somersault safely.

**Girls:** One piece leotards are required (no color/style restrictions). Shorts or leggings may be worn over their leotard if preferred.

**Boys:** Athletic shorts or pants with a t-shirt that is long enough to tuck in. No denim or zippers.

# FORM. FOCUS. FEARLESS FUN.

## ABOUT US

Our philosophy is clear: “to give children the space to develop as athletes, both in and out of the gym by providing opportunities for bravery, tenacity, and commitment.” We believe in helping your child develop their advancing gymnastics skills, while also creating proud and impactful moments that allow them to simply celebrate being a kid! Expert coaches break down complex skills into manageable steps, ensuring safe, personalized progress. Our classes are built on a foundation of USA Gymnastics’ curriculum, regular progress updates, and celebrating each child’s achievements. Strength, smiles and where upside down feels right side up, welcome to Excel!

## FACILITY

Bright. Colorful. Built for kids. Our full-sized gym is filled with natural light and buzzing with energy, high fives, celebrations, and “I did it!” moments happening all day long. Parents can easily view the entire space while athletes train on regulation sized equipment, including multiple bars and beams, a vaulting table, climbing rope, an in-ground tumble track, and an eight-foot in-ground foam pit made for big skills (and even bigger smiles). Every detail, right down to the water bottle filler that keeps them fueled, is designed to create a space where kids can train hard, dream big, and love every minute of it.

# ADVANCEMENT

Where determination meets the mat, progression is purposeful, motivating, and clear. We use a structured, step-by-step curriculum with defined skill goals, allowing each gymnast to advance at their own pace. Our leveling system creates a natural pathway into more advanced classes, so as skills grow, opportunities grow with them, preparing athletes for higher-level training when they're ready.

Each gymnast tracks their progress with a skill tracker, giving them (and you) a clear view of what they're mastering and what they're working toward next.

# DRESS CODE

Appropriate class attire helps make sure that your student is ready to learn and will be able to participate in every cartwheel, handstand, and somersault safely. Dresscode approved attire is for sale in our school age gym.

**Girls:** One piece leotards are required (no color/style restrictions). Shorts or leggings may be worn over their leotard if preferred. Hair pulled back, away from your gymnasts face.

**Boys:** Athletic shorts or pants with a t-shirt that is long enough to tuck in. No denim or zippers.

# THE AMERICA'S KIDS PROMISE

We promise progress every lesson or we will give you another lesson for free. Our 35+ years of experience and proven curriculums ensure we teach the way your child learns. Add in expert coaches who love what they do with students who are eager to learn and you have a recipe for success.

*My girls are so excited to go to class every Friday night and burn off some extra energy. Our coaches have made such a positive influence on them! You truly hired the right guys for this job. Thank you for teaching our girls to believe in themselves and to overcome obstacles they thought they wouldn't be able to do. We thank you for all the hard work you have done to deal with our wild and crazy kids.*

## Baby Ninja Walkers

Tiny Tots, Big Adventures! The toddler years are wild, bouncing off the walls, and always full of energy! Our parent and child classes are the perfect place to burn off that extra energy while developing essential movement skills, independence, and social connections. Through fun, active play, your baby ninja will develop coordination, practice social skills, and bravely try new things. It's the perfect way to channel all that excitement into healthy, playful growth!

## Lil' Ninjas

With exciting obstacle courses, tumbling tricks, and daring ninja stunts, your little whirlwind will spend an hour practicing tumbling skills, strength building exercises, safe landings and falls, because ninjas always stick the landing. Our Ninja Masters will also introduce important ninja values like focus, respect, teamwork, and discipline; skills that set the stage for success in sports and life! It's the perfect mix of athleticism, fun, and adventure for high energy kids who love to move, sweat, and smile.

## Ninja Girls

Built for girls who are fearless, fierce, and ready to fly. Always in motion, never on the bench, packed with fast-paced obstacle courses and purposeful challenges. Jump by jump, swing by swing, kids build real agility, coordination, strength, and explosive power; developing true athleticism in a way that feels like pure fun. It looks like play (the best kind), but every movement has a mission: stronger bodies, quicker feet, sharper focus, more confidence. Because around here, we don't just burn energy, we build strong girls.

# CHILDHOOD WASN'T MEANT TO BE SPENT SITTING STILL

## ABOUT US

NinjaZone is a program designed for busy kids to burn off energy while developing essential skills like strength and agility. With trampolines, climbing ropes, and challenging obstacles, it's a high energy environment where kids can just be kids. Specially crafted as a dynamic alternative to traditional gymnastics, NinjaZone encourages focus, tenacity, and discipline; it's like the real life version of video game fun!

## FACILITY

It's not just a wall, it's THE WARPED WALL. The one your little ninja will dream about, charge toward, and eventually conquer with a victory pose. And right beside it? An epic climbing rig we built for your not-so-little monkey to swing, scale, and problem-solve their way through. Between the warped wall and the climbing zone, they'll build strength, smarts, and confidence; with a soft mat waiting when gravity wins. And while kid volume may be turned all the way up, our glass viewing area gives you a front-row seat to the action without sitting directly in the splash zone of sound. You'll still hear "MOM, LOOK!" of course; but honestly, that's part of the magic.

## DRESS CODE

All students in the Ninja program are required to wear the NinjaZone t-shirt and headband; athletic shorts or pants (no denim or zippers) and socks of your choice. Wearing the Ninja uniform teaches responsibility at an early age and helps students to feel like part of the group, foster team unity, and encourages loyalty. Uniform packs are available for purchase in our AKIM Swim and Dance facilities.

## ADVANCEMENT

At NinjaZone, leveling up isn't a mystery; it's a mission. Every ninja brings their Skill Tracker to class each week, like a roadmap for where they're headed next. Flip by flip, swing by swing, they can actually see their progress stacking up. When they master a level, we don't just quietly nod and move on. Oh no. We ring the bell. Loudly. It's a moment. A proud grin. A little swagger walk. Then it's off to a new class, a fresh set of skills, and a bigger mountain to climb. Because around here, progress isn't random; it's earned, celebrated, and seriously cool to watch.

# THE AMERICA'S KIDS PROMISE

We promise progress every lesson or we will give you another lesson for free. Our 35+ years of experience and proven curriculums ensure we teach the way your child learns. Add in expert coaches who love what they do with students who are eager to learn and you have a recipe for success.

## Preschool Prep

2 years

*\*Requires Parent Participation*

BusyBee Preschool Prep is your weekly exhale. Instead of searching for activities, planning crafts, or wondering if you're "doing enough" at home, you can step into a thoughtfully designed class where everything is already prepared, by early childhood experts who understand exactly how two-year-olds grow and learn. We create the structure, the social opportunities, and the developmental experiences your toddler needs, so you can simply show up, connect, and enjoy the stage without the pressure. BusyBee Preschool Prep is part preschool, part playdate, and entirely designed to make this season feel lighter, for you and your little bee.

*"We love The Campus Preschool! The teachers are so nurturing and able to provide a safe, loving environment for young learners. Having one campus preschool graduate and one child in the three year old program, I appreciate how they treat each child as an individual, with different interests and abilities. My son is physically active, and the campus preschool provided an environment that was right for him and his learning style. He's now thriving in kindergarten—excelling at reading, writing and basic math skills. He was fully prepared for the structure, requirements, academics and fun of the kindergarten setting. I know my daughter will be just as prepared!"*

## TK Prep

*2.5-3.5 years*

Transitional Kindergarten is just around the corner, and TK Prep helps little learners get ready for the adventure ahead! This class focuses on building strong early academic skills through playful, hands-on learning. Each day is filled with fun and academic based activities, think interactive circle time, storytelling, and guided stations for letters, numbers, and patterns. But we're not just about the ABCs and 123s, we also help kids strengthen essential executive function skills like following directions, handling big emotions, and problem solving.

## TK

*3.5-5+ years*

Kindergarten isn't just about ABCs and 123s. Each day in TK/Kindergarten is filled with stations, circle time, reading groups, worksheets, and activities that build towards advanced academic success, while also focusing on executive function skills, helping students learn how to follow multi-step directions, manage emotions, solve problems, and staying flexible when things don't go as expected. Whether they're strengthening early literacy, exploring STEM concepts, or practicing teamwork, they'll leave each day feeling strong, capable, and excited for what's next. Because when learning feels this good...watch out world!

# READY, SET, LEARN! KINDERGARTEN HERE WE COME!

## About Us

Give your child an incredible head start, blending top notch academics with movement based learning, social emotional growth, and early exposure to public speaking. Here, little bodies stay active, big ideas take root, and learning feels like fun. Through music lessons, gymnastics classes, and a carefully crafted curriculum, your child will build the skills they need to excel in the classroom and beyond.

Research shows that children learn best when they move, and we've built our entire approach around that. Our unique movement-based curriculum blends hands-on exploration, academic rich activities, music education, and guided stations to help children develop strong foundations in literacy, math, problem solving, executive function, and social emotional skills. Whether they're hopping through letter games, balancing through number sequences, or storytelling with full body expression, they're experiencing knowledge in a way that sticks.

We're proud to offer the only movement based educational preschool in the Central Valley, where academics and action go hand in hand. Our preschool curriculum is built on a strong academic foundation, carefully designed to meet California state standards for kindergarten, so your child is more than ready for what's next. Our intentionally low 2:12 ratio allows teachers to personalize instruction, nurture meaningful connections, and adjust in real time to each child's academic and emotional development. We offer custom scheduling options designed for modern families, so you can build a preschool experience that fits your life while never compromising your child's momentum. More than just preparing for kindergarten, we're preparing children for a lifetime of fearless learning, meaningful friendships, and innate confidence; because we know the best learning doesn't happen while sitting still.

# MEMORABLE MELODIES. NOTABLE MOMENTS.

## ABOUT US

We believe music should be as fun as it is educational, and at Notable Music Adacemy, it truly is both. We inspire children to explore music through hands on learning and movement. With classes in piano, violin, guitar, and choir, your child will learn a range of musical skills while laughing, creating, and falling in love with music in a supportive classroom created just for kids. And because fun is the best teacher, our classes, led by highly trained musicians, blend solid musical foundations with creativity and play, ensuring that kids don't just learn music, they love it.

MUSIC ACADEMY

## THE AMERICA'S KIDS **PROMISE**

We promise progress every lesson or we will give you another lesson for free. Our 35+ years of experience and proven curriculums ensure we teach the way your child learns. Add in expert coaches who love what they do with students who are eager to learn and you have a recipe for success.

*We love piano lessons with Ethan! He is absolutely amazing with my six year old Luka. We both look forward to Thursday classes because we know he is going to love his time there. Thank you so much for everything Ethan!*

### Piano

Where little fingers learn to dance across the keys! The Notable Piano Program turns educational piano lessons into a “play”ful approach to the art form. Students learn through interactive techniques that blend listening, movement, and visual cues, making abstract concepts more accessible and memorable. Technique is taught with intention, using age appropriate exercises that feel natural and achievable. Our curriculum balances creativity with consistent routines and musical theory, offering the structure kids need to thrive, without losing the sense of fun that keeps them coming back for more. This playful yet purposeful method helps young pianists build skills, confidence, and a lasting love of music from the very first note. Piano is taught using the Alfred Piano Method.

## Violin

Our beginner violin lessons are the perfect introduction to the world of music! Students start with the essentials: proper posture, how to hold the violin, and how to use the bow with control and confidence. Through simple, encouraging steps, kids learn to create a beautiful sound, read music, stay on rhythm, and play in tune. Students develop essential skills in rhythm, and tone while learning to create beautiful music on the violin. Through engaging, interactive lessons, children gain confidence with bowing techniques, sound production, and basic note reading. These private violin and viola lessons provide personalized attention, ensuring each student progresses at their own pace while enjoying every step of the learning journey.

## Guitar

Where little hands learn to strum, pick, and play their very first chords! Technique is taught with intention, using age appropriate exercises that build finger strength, coordination, and smooth transitions in a way that feels natural and achievable. Our curriculum balances creativity with consistent routines and foundational music theory, giving students the structure they need to progress with confidence – without losing the fun that keeps them excited to practice. This playful yet purposeful method helps young guitarists develop real skill, steady rhythm, and a lifelong love of music from their very first strum. Guitar is taught using a structured, progressive method designed to build strong fundamentals step by step.

## Choir

Music, friendship, and growth in every note! Our choir lessons, bring young singers together in the Notable Youth Choir to experience the joy of making music as a team. Through vocal exploration, group harmony, and expressive performance, children build strong singing foundations while developing confidence and friendships. Whether your child is brand new to music or already loves to perform, our Fresno youth choir creates a supportive, encouraging environment where every voice can grow, shine, and feel proud on stage.

# NOT SCHOOL. NOT DAYCARE. JUST THE GOOD STUFF.

## CHILDHOOD CALLED- IT'S WAITING AT CAMP!

Gone are the days of riding your bike across town to meet friends at the local pool, but school break fun doesn't have to disappear.

The BEST of the BEST all rolled into one unforgettable experience! CampKids brings together the most-loved crafts, games, swimming, ninja courses, creative projects, and high-energy activities from every themed camp we've ever hosted, giving kids a little taste of everything we do best. Each day feels fresh, fun, and full of surprises, designed to keep campers engaged from drop-off to pick-up. We're bringing back those classic childhood memories (the kind filled with laughter, movement, and meeting new friends) and packing them into a joy-filled experience. At AKIM, kids beat boredom, build confidence, and spend their days exploring, creating, splashing, and smiling their way through an unforgettable camp adventure. We're bringing back the best parts of childhood: Friends. Freedom. FUN.

# AKIM SUMMER PROGRAMS

## No Bummer Summer Camps

Bring back the magic of carefree childhood fun, the kind where kids ride bikes, invent new games, and laugh until the sun goes down. At CampKids, every day feels like an adventure, with a schedule packed full of swimming, gymnastics, ninja courses, crafts, games, and themed days your child will talk about all year long.

## Summer Swim Lessons

We don't have to see your summer calendar to know it's probably packed with fun; that's exactly why we created our Fast Start Swim Program. A focused two-week session designed for busy families. Swimmers can gain and refresh skills, build water confidence, and get splash-ready for pool days, swim team prep, or simply safer summer fun. It's efficient, effective, and made to fit perfectly into those "just a few weeks" of summer.

## Little Learners Preschool Camps

From morning hellos to goodbye hugs, every day at camp is packed with little moments that make childhood special! Mornings and afternoons are filled with themed activities, hands-on projects, and academic learning stations. Whether they're painting, reading, or getting lost in pretend play, everything is designed to help them feel curious and eager to learn. And when it's time to get their energy out, they'll have space to climb, bounce, and play in our indoor playhouse, outdoor playground (weather permitting), bounce house, and gymnastics area. The experiences Little Learners have will shape how they feel about learning and give them a head start on preschool academics this fall.

## Dance Intensives

This experience offers a meaningful glimpse into training with our award-winning Company faculty. Ideal for aspiring Company dancers, current members preparing to move age divisions, and those who wish to be thoughtfully evaluated, intensives allows our faculty to assess readiness, provide honest feedback, and offer guidance on next steps. It's also a valuable mid-year opportunity for dancers to refine technique and maintain peak performance.

## Gymnastics Clinics

These power packed clinics include technical training, demonstration and hands on instruction by our USAG certified instructors. Whether you have never attempted the skill, just need to polish up what you know, or want to perfect the mastering of the skill, these concentrated clinics are valuable growth opportunities.

## OUTDOOR PRIVATE LESSONS

**\*LOCATED ON WILLOW, JUST SOUTH OF SHEPHERD**

Our outdoor private lesson facility offers something seasonally different. This is where swimming feels like childhood; sunshine on shoulders, the scent of sunscreen in the air, a parent watching from the pool deck as summer swim skills begin. Generations of valley families have learned to swim at this historic location; one instructor, one swimmer, full attention, steady encouragement. With limited spots and a deeply personal approach, this backyard setting is where skill is developed thoughtfully, confidence is nurtured steadily, and core summer memories are made. Because around here, it's all about sunshine, splashy smiles, and steady skill-building.

## AT HOME LESSONS

**BRING THE SWIM SCHOOL TO YOUR POOL**

With our Mobile Swim Lessons, summer shows up right at your doorstep. Your backyard becomes the backdrop for cannonballs, courage, and those proud "Did you see that?!" moments, all in the comfort of home. Our certified instructors bring one-on-one teaching to your pool, helping your child build real water safety skills and steady confidence in a space that feels most familiar. There's no rushing across town, no packing up wet towels, just sunshine, splashy smiles, and meaningful progress unfolding a few steps from your back door. It's simple, personal, and sweet in the very best way, the kind of summer rhythm that turns strong swimmers into lifelong water lovers.

**BUILT FOR EVERY AGE,  
EVERY STAGE, AND EVERY  
SPLASH IN BETWEEN.**

# NEW LOCATIONS

With grateful hearts and deep respect for the families who built them, we've been blessed to step into several historic children's activity facilities here in our valley – spaces that have long been treasured parts of our community's story. These are places with deep local roots, locally loved, where generations of families shared proud and impactful moments, core memories, and some of their very first big childhood milestones.

Long before us, these facilities played an important role in the development of children's dance and swim programs across our community, shaping confident dancers and strong swimmers year after year. We are honored by the trust families have placed in us to continue serving in these meaningful spaces, carrying forward the spirit of care, warmth, and commitment to kids that made them special in the first place – while thoughtfully beginning a new chapter for the next generation.
